PROFESSIONAL SUMMARY

Motivated BCA graduate and Java Full Stack Developer with hands-on experience building scalable web applications, RESTful microservices, and relational database solutions using Core Java, Spring Boot, Hibernate, and MySQL. Proven track record in full-stack project development and front-end optimization. Seeking an entry-level Software Developer position to engineer efficient backend architectures and dynamic user experiences.

TECHNICAL SKILLS

Languages & Frameworks: Java (Core, OOPs), Servlets, JSP, Spring Boot, Spring Data JPA, Hibernate, RESTful APIs, JDBC

Web Technologies: HTML5, CSS3, JavaScript (ES6+), Bootstrap, JSON

Databases & Tools: MySQL, SQL, RDBMS, Maven, Git, GitHub, Postman, Eclipse, VS Code

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Exception Handling, Collections Framework

PROJECTS

E-Commerce Web Application (ManFitX) - *Java, Servlets, JSP, JDBC, MySQL, HTML5, CSS3, JavaScript*

- Architected a full-stack e-commerce web platform for men's apparel, integrating secure user authentication, session handling, and real-time shopping cart management.
- Optimized database transactions using PreparedStatement in JDBC, improving data retrieval efficiency and preventing SQL injection vulnerabilities.
- Implemented responsive search and filter functionalities, handling persistent order management across 10+ dynamic page components.

Employee Management System - *Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, HTML, CSS*

- Engineered a RESTful web application to automate administrative onboarding, departmental tracking, and employee record updates.
- Built robust backend REST endpoints with Spring Boot and automated ORM mapping using Spring Data JPA and Hibernate.
- Enforced backend data validation and transactional rollback logic, ensuring 100% data consistency across multi-table updates.

Task Tracker REST API - *Java, Spring Boot, RESTful APIs, MySQL, Postman*

- Designed and deployed a microservice backend architecture for task management with features for priority tagging and status updates.
- Structured relational database schemas in MySQL, leveraging JPA annotations for streamlined CRUD operation execution.
- Conducted API endpoint testing and status-code verification via Postman, validating payload structures across all HTTP methods.

WORK EXPERIENCE

Front-End Web Development Intern **May 2025 – July 2025**
Intellirays Technologies Pvt. Ltd.

- Developed responsive UI components including registration forms, navigation bars, and landing pages using clean CSS layout techniques.
- Performed cross-browser testing and optimized asset rendering to maintain seamless cross-device compatibility.
- Collaborated with team members to resolve layout defects, improving UI responsiveness and overall page usability.

EDUCATION

Bachelor of Computer Applications (BCA) **2023 – 2026**
The Adoni Arts and Science College | CGPA: 7.11/10.0

CERTIFICATIONS & TRAINING

- **Java Full Stack Skills Training (6 Months):** Tap Academy – Intensive hands-on coursework covering end-to-end Java full-stack development.
- **Java Skill-Up Course:** GeeksforGeeks – Focused training on Core Java, OOP principles, and data manipulation.
- **Introduction to Cybersecurity:** NIIT Foundation – Fundamentals of network security and operational safety protocols
